

Space 18th SDG: Collaborating with U.N. COPUOS, Making Space Truly for All

Virtual Round Table – 12 June 2024

----- For immediate release -----

On 12 June 2024, a Virtual Round Table will be held by the [Space 18th SDG Coalition](#), on the theme of “Collaborating with U.N. COPUOS, Making Space Truly for All”.

Organized by [Space Renaissance International](#) (SRI) and the [National Space Society](#) (NSS), the Space 18th SDG Coalition celebrates nearly 100 organizations from all corners of Planet Earth.

The United Nations established the U.N. Office for Outer Space Affairs ([UNOOSA](#)), and the Committee for the Peaceful Use of Outer Space ([COPUOS](#)) in 1959 to govern space exploration and space use for all humanity, with peace, security, and development. Including 102 member states, COPUOS represents the main international connector among both space-faring and aspiring spacefaring countries.

COPUOS holds its 67th session General Assembly from 19 to 28 June 2024. The Space 18th SDG Coalition’s Virtual Round Table, held a week prior, will urge the international space community to establish more public and proactive positions on key priorities. In anticipation of the emerging cis-lunar economy and civilian-led peaceful space development, this collaboration seeks full and harmonious inclusivity for all stakeholders from all Countries.

The highly interactive workshop-style event, moderated by Robert S. Katz^[1] (WIN), kicks off with a featured opening keynote by the Space 18th SDG Coalition’s visionary founder Adriano V. Autino^[2] (SRI). Following his call-to-action address, five eminent duos of highly esteemed space thought leaders chair five focused one-hour panels:

Panel #01 (15:00 UTC) – *Use of Space Resources*

Stephan Reckie ([Global Entrepreneurship Network](#))

Martina Dimoska ([International Space Alliance](#))

Panel #02 (16:00 UTC) – *Orbital Debris*

Haroon Oqab ([Kepler Space University](#))

Mikhail Baskov ([iDare Space Travel](#))

Panel #03 (17:00 UTC) – *Space Law and Private Entities in Outer Space*
